

**TAMPA ELECTRIC COMPANY – BIG BEND POWER STATION
CERTIFICATION OF COMPLETION OF REMOVAL OF CCR MATERIALS AND
COALFIELD STORMWATER RUNOFF (SLAG SETTLING) POND CLOSURE**

1.0 CLOSURE BY REMOVAL

Pursuant to 40 C.F.R. § 257.102(f)(3), the owner or operator of a CCR unit must obtain a certification from a Qualified Professional Engineer (“Engineer”) verifying that closure has been completed in accordance with the provisions of 40 C.F.R. § 257.102(c). Wood Environment & Infrastructure Solutions, Inc. was retained by Tampa Electric Company (TEC) as the Engineer for the closure project and to prepare this certification verifying that coal combustion residuals (CCR) have been removed from the above-referenced CCR unit and closure was completed in accordance with the Closure Plan previously posted on the TEC publicly accessible website on October 3, 2018.

This closure project was conducted with direct observation by the Engineer, who verified removal of all CCRs based on visual examination of the excavation. This Certification Statement is provided to document that TEC has completed CCR removal from the above-referenced CCR unit in accordance with 40 C.F.R. § 257.102(c) and the Closure Plan.

2.0 LIMITATIONS

This certification is based on information available to the Engineer as of this date. Any opinion or decisions by the Engineer are made on the basis of the Engineer’s experience, qualifications, and professional judgment and are not to be construed as warranties or guaranties.

3.0 CERTIFICATION

I, Michael Kelley, being a Registered Professional Engineer, in accordance with the Florida Professional Engineer’s Registration do hereby certify to the best of my knowledge, information, and belief, that the information contained herein is true and correct and has been prepared in accordance with generally accepted good engineering practices.
