

# Important Rate Information for Residential and Non-Demand Customers

The Florida Public Service Commission (PSC) recently approved an adjustment to Tampa Electric's 2025 base rates and service charges to take effect in January 2025. These adjustments support the following initiatives:

**Meeting growing energy demands:** Addressing population growth, the rising use of electric vehicles and the increasing electrification of homes and businesses.

**Enhancing system resilience:** Reducing fuel costs by improving efficiency at existing power plants and expanding investment in solar energy.

**Focusing on long-term affordability:** Reducing fuel costs by improving efficiency at existing power plants and expanding investment in solar energy.

**Strengthening reliability:** Enhancing technology to enable automatic, remote service restoration and faster, more cost-effective diagnosis and repair when more in-depth work is needed.
